Container Gardening Workshop
Learn to grow vegetables in almost anything

June 22nd
Makkovik Craft Centre
Please contact Marilyn to sign-up

In this workshop, you'll learn all the basics of container gardening, so that you can grow your own vegetables and herbs at home.

We'll discuss topics like:
- What is container gardening?
- What advantages are there to container gardening?
- What can I grow in containers?
- What kinds of containers can I use?
- What grows well in our climate?
- What do I look for when buying seeds?
- When and how do I start seeds?

We'll provide all seeds and equipment to get you started.

Space is limited to 8 people so please contact Marilyn Faulkner to sign-up.

Thank you! Hope to see you there.
